MK 1200

GALACTRON

## MK 1200 Mains Filter

Max Power Handling: 1200 Watts Total

Total dedicated filtered outputs: 4

- 1) & 2) Power Amplifier (max output power 1000 watt on both outlets)
- 3) Line Preamp (max. output power 100 watt)
- 4) CD player (max. output power 100 watt)

PS: The 1 & 2 Output connectors (Power amplifiers) are wired by a single Main Power Transformer with a maximum output power of 1000W. You can use also a single output connector with a maximum load of 1000W or you can share the load in different ways, without exceeding the maximum supported power of the transformer.

Operating voltage: 230V +/- 10%

Dimensions (HxWxD): 380x435x220mm

Weight: Kgs 28
