

MK 2400

MK 2400 Mains Filter

Max Power Handling: 2400 Watts Total

Total dedicated filtered outputs: 6

- 1) & 2) Power Amplifier (max output power 1000W each)
- 3) Line Preamplifier + 4) Phono Preamplifier + 5) DAC (max. output power 300W on 3 outlets)
- 6) CD player (max. output power 100W)

PS: The 3,4&5 Output connectors (Line Pre, Phono Pre and DAC) are wired by a single Main Power Transformer with a maximum output power of 300W. You can use also a single output connector with a maximum load of 300W or you can share the load in different ways, without exceeding the maximum supported power of the transformer.

Operating voltage :230V +/-10%

Dimensions (HxWxD): 465x515x220mm

Weight: Kgs 42
